

# PLANT-ANIMAL INTERACTIONS

**PBC 410/BIO SCI 333/ENVR SCI 390**

**SPRING 2023, T&Th 12:30–1:50**

**w/ Prof. Paul CaraDonna**

This course will explore the diversity of interactions between plants and animals, including antagonistic interactions (e.g., herbivory), mutualistic interactions (e.g., pollination, seed dispersal and ant-plant associations), and interactions involving multiple species and across trophic levels.
